### Area of Interest

- Reading
- coding

### Achievement

- [Zoom Marathon Participation](#)
- [NCC Certificate](#)
- [Industrial Training Certificate](#)

### About Me

Efficient full-stack web developer, having problem-solving ability. A good learner and always excited to learn new things in terms of technology. Skilled in teamwork, collaboration, and time management. Looking for an opportunity to work in a challenging position for a technology-driven organization.

### Projects

#### GlamConnect

GlamConnect is a web application allowing users to book beauty appointments with professionals in different categories, such as Hair and Styling, Makeup Artists, Estheticians, and Skincare Specialists. The app provides an easy-to-use interface for browsing beauty professionals, selecting services, and scheduling appointments.

#### Tech stack

- Node.js
- Express.js
- MongoDB
- Mongoose
- Nodemailer (for email notifications)
- React (for frontend)

#### Petcare

PetCare is a comprehensive platform that enables pet owners to conveniently book appointments with veterinarians at clinics. It incorporates a backend system to manage pet-owner data, veterinarian availability, and appointment scheduling. The system design follows a microservices architecture to enhance scalability and reliability.

#### Tech stack

- Node.js
- Express.js
- MongoDB
- Mongoose
- Nodemailer (for email notifications)
- React (for frontend)
